

Chugiak Dog Musher's Association
COVID-19 Safety Provisions

In an effort to offer races to our members, AND in order to stay within municipal guidelines for outdoor events, all participants must adhere to the following safety provisions:

CDMA Covid-19 Safety Provisions

Racers, crew members and race volunteers shall review and follow the provisions listed below to ensure the safety of all participants.

Household or Kennel: A household/kennel is defined as one or more racers and necessary crew members from the same household or kennel "bubble." Each household/kennel is responsible for getting their team(s) to the starting line without help from other households/kennels or race volunteers. There will be a limit of 9 households/kennels in each racing class.

Crew members: Names and contact information for all crew members shall be provided at registration. Crew members must be part of your household or kennel "bubble" and shall stay at the vehicle during the event, except for bringing your team to the starting line.

Spectators will not be allowed at this event.

Face Coverings: All racers, crew members and volunteers shall wear face coverings when out of vehicle, from the moment they enter the CDMA parking lot throughout the event. Racers may lower the face covering if necessary for breathing when exerting effort on the trail away from other people.

Parking: Vehicles will park according to bib number as directed by CDMA officials, with safe distance from other vehicles.

COVID-19 Screening Criteria: Racers, crew members, and volunteers must meet all the screening criteria (page 2) to participate in the event.
